

March 2011

Scottsdale, Arizona  
U. S. A.

## We are moving and expanding ...

First, to handle our growth, SMI is ***moving to a larger office suite***. A new office suite, but in the same building. So the only change to our address is a **new suite number – 201**. The new address is:

***Scientific Monitoring, Inc. (or SMI)  
8777 E. Via de Ventura Dr., Suite 201  
Scottsdale, Arizona 85258***

Second, we are **expanding into energy and power systems monitoring** from our core competence of aircraft and engine monitoring. These systems include home/premise energy consuming appliances and marine power generation/propulsion systems.

Third, to simplify our customer interface, SMI has ***changed its domain name*** from “scientificmonitoring” to “sci-mon.”

Our new web site URL is: [www.sci-mon.com](http://www.sci-mon.com).

You are encouraged to take advantage of the new domain name. However, email sent to the old domain will continue to be forwarded to avoid any disruptions.

**Change is in the wind** – to see how SMI can facilitate your change please contact:
